Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	2 Marks

Customer Journey Map

Map out the ComicCraft creator's experience stage-by-stage, capturing actions, touchpoints, thoughts, and feelings while creating an AI-assisted comic, along with improvement opportunities at each stage.

	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Capture a comic idea - Choose genre and style - Start a new project	- Enter a story prompt - Select art style and tone - Create the first draft	- Review the comic concept - Check the chosen style - Decide what happens first
Touchpoint <i>What part of the service do they interact with?</i>	- ComicCraft start screen - Prompt and style controls - Create button	- Gemini story assistant - Storyboard and panel editor - Character references	- Preview and editing tools - Character consistency checks - Export and share output
Customer Thought <i>What is the customer thinking?</i>	- Can I turn my idea into a compelling story? - Is the style right?	- Does the story flow? - Are characters consistent? - Can I revise this scene?	- Is the final comic cohesive? - Is it ready to share? - What can I improve?
Customer Feeling <i>What is the customer feeling?</i>	- Curious and inspired - Slightly uncertain - Ready to create	- Engaged and creative - Focused during revisions - More confident	- Satisfied with the result - Proud of the comic - Ready to publish
