

Project Details

Date	Team ID	Project Name	Maximum Marks
30 September 2026	SWTID-2026-6777	ComicCraft - AI Comic Story Creator using Gemini Models	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the ComicCraft team presents the project clearly and effectively. The demonstration will cover the problem addressed by ComicCraft, the proposed AI-powered comic creation solution, the major functional features, the live web interface, backend integration, and the overall project outcome. Each team member will have a defined responsibility during the demonstration.

Demo Sections

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce ComicCraft, the story-to-comic problem, project objective, and motivation for building an AI comic story creator.	2	Pravin Kumar P
2	Solution Overview	Explain the ComicCraft architecture, FastAPI backend, web interface, Gemini integration, and overall request-to-response workflow.	3	Mohammed Jamil Fiyaz J
3	Core AI Features	Demonstrate Story Idea Intake, Five-Frame Story Generation, Narration and Dialogue, and Scene Art with image prompts.	4	Vishal M
4	Customization & Demo Studio	Demonstrate story mood and art direction options, Try a fresh spark, and the demo studio that works without API keys.	2	Thirumurugan A
5	Live Application Demonstration	Show the web interface, submit a real story idea, display the generated five-frame comic, and use Download your comic and Make another.	4	Pravin Kumar P
6	Testing, Results & Q&A;	Present testing results, project outcome, limitations, future enhancements, and answer questions from the audience.	3	Thirumurugan A

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the story-to-comic problem, project objective, and motivation behind ComicCraft.
2	Solution Overview	Explain the architecture, technology stack, Gemini integration, FastAPI backend, and web interface.
3	Live Feature Demonstration	Demonstrate story idea intake, five-frame story generation, narration and dialogue, scene art, and download.
4	Q&A; Session	Answer questions about implementation, AI integration, testing, limitations, and future enhancements.

Branding Placement Confirmation

This layout keeps the SmartBridge / SkillWallet branding on every slide, with the centered title and the project details, demo sections, and demo flow tables arranged to match the reference template's alignment and spacing.

Formatting Notes

- All table borders are retained and set to be clearly visible for print.
- Heading hierarchy and spacing follow the reference structure so each slide fits cleanly.
- Accent color for header cells: #FFE14D to match requested theme emphasis.

One-Page Fit Assurance

Content has been kept concise and each slide is sized to avoid overflow. Tables use clear column widths and rows, and font sizes are set for readability to prevent any overlap or truncation when exported to PDF.

Export Details

Filename: Project Demo Planning.pdf. Use standard US Letter or A4 settings depending on institutional requirements.
Ensure print margins are narrow but sufficient to prevent cutting table borders.

Sign-off

Prepared by: ComicCraft Demo Team — Pravin Kumar P, Mohammed Jamil Fiyaz J, Vishal M, Thirumurugan A. Approved for presentation on 30 September 2026.
